At Olea, music is part of the atmosphere rather than a program. It appears throughout the day in different corners of the resort, shifting in tone and tempo as light moves across the landscape.

From understated daytime soundscapes by the pool to live performances in the evening, each moment is shaped by its setting and time of day. Discreet, immersive, and always in dialogue with its surroundings, sound becomes another layer of the Olea experience.

At the heart of it all, a 25-metre outdoor swimming pool stretches through the landscape, offering moments of weightlessness and calm. Each space is designed to support a different form of presence, allowing wellbeing to unfold in its own time and way.

Shaped by the natural rhythm of the island, each session unfolds differently—responding to light, season, and atmosphere.
